

# San Joaquin River Dissolved Oxygen Total Maximum Daily Load Technical Working Group Meeting

Tuesday, December 14, 2010

9:30 a.m. – 12:00 p.m.

630 K Street, 2<sup>nd</sup> Floor Conference Rooms  
Sacramento, California 95814

## Agenda

### Introductions and Agenda Review

- Welcome and Introductions

### Updates and Announcements

- CVRWQCB update from April Roundtable Discussion (Christine Joab)
- Stockton DWSC Dissolved Oxygen Aeration Facility (Bill McLaughlin)
- San Joaquin River Water Quality Management Group

### Presentations

- Possible SJR-DO TMDL Implementation Procedures — Russ Brown, ICF International
- Future Operations of the Aeration Facility – TWG Roundtable Discussion

#### Roundtable Discussion/Questions to Consider

- When should the Aeration Facility be operated to increase the DWSC DO?
- Should the September DO objective be reduced to 5 mg/l?
- How can SJR-DO TMDL responsibility be determined when DO is below the objective (Excess Net Oxygen Demand)?
- Who should be responsible for operating costs?
- What credits should be allowed for Aeration?
- Can the Port of Stockton aeration requirements (for dredging) be satisfied with the Aeration Facility?
- What long-term monitoring should be required for compliance with the DO objective?

### Identify Next Steps

###
