

Analysis of Rating of Screening Criteria for Non-Aeration Feasibility Studies Summary of Draft Ratings of the Screening Criteria Non-Aeration Feasibility Studies

The meeting will take place from 9 am until 12:30 pm at the Jones and Stokes Office auditorium room at 2600 V Street in Sacramento.

The meeting objectives include:

1. Review the Screening Criteria process and purpose and gain feedback on the next steps.
2. Identify the "linkages" for which there is strong support for further studies and evaluation.
3. For those "linkages" for which there is controversy on the Potential Value or another Criteria, identify the source of the controversy and resolve as many problematic issues as possible.
4. Identify those "linkages" which should not be recommended for further study.
5. Set next meeting date and clarify next steps.
